John,

Hope the other stuff helped. There are at least two of us that know about how your stuff was kept at the MS and Central Office. Only recently was your stuff moved. An attorney said this black bag should be returned so here it is with about 300 pictures from two boxes. A blown-whistle law would give protection but need more time. Able to help again more soon and gurantee help before trial. Please understand. Keep your faith. They don't want the truth.
