

These documents were provided to www.accountabilityinthemedia.com by Pastor Don Matolyak. Matolyak said that the items were sent to John Freshwater through the mail and received on January 14, 2010.

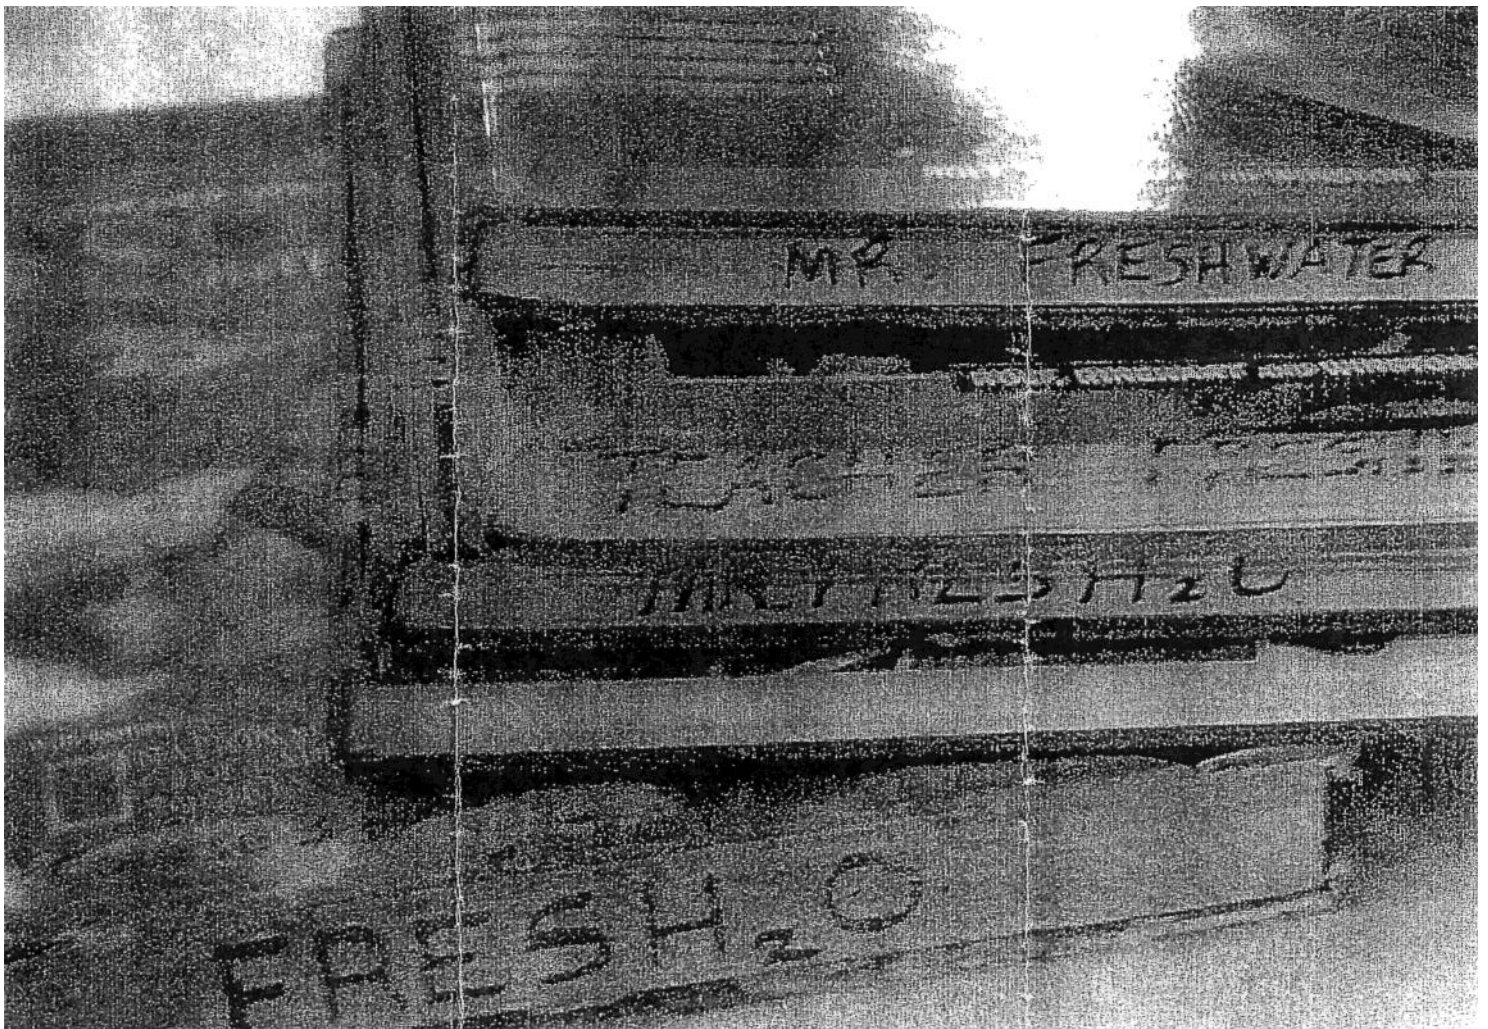

John:

There is so much more you need to know. For now keep these picture and copies of things you might remember and this note sent to Steve Short. This is not how this situation was supposed to go and there's alot of regret.

January 11, 2010

Steve Short:

I once trusted you and thought you would be a real good leader. You allowed yourself to become part of some dirty, dirty, dirty, people. I know some of what's been done. Understand it will be revealed what I know if you do not stop this framing of John Freshwsater as a bad man. I cannot stand the lies and deceit that have been done and now is the time to stand up for what's right. There is proof where these pictures and copies were taken. These pictures are reduced for now but if necessary these pictures and all the others can show the world the full view which will display the location of these books and papers and the other things taken from Freshwater's classroom. You and this dirty group of people tried to take down one man and ended up hurting the careers of more than just Freshwater. It is wrong what has been done and beware that I don't tell all to. Remember the do unto others as you want done unto you may just be done if you let this keep up. You cannot be trusted alone with these pictures so I am sending this letter and thes pictures to others to.

You can build a
throne with
bayonets but you
can't sit on it for
long.

"What you do not want done to yourself, do not do
to others."
Confucius

TO: 8th grade science teachers
 FROM: Elle Bulton
 RE: New science texts/state standards
 DATE: August 11, 2003

Our new textbooks have arrived!!! We have 4 sets of books which will cover the state standards. The 8th grade science curriculum map is attached, and aligns the required standards with the books and chapters each topic can be found. Listed below is a summary of that same information as well as chapters which may be covered in grades 6 or 7.

| BOOK | CHAPTERS | GRADE 6 or 7 |
|--------------------------------------|----------|------------------------|
| "C" Cells, Heredity & Classification | 3-6 | 6 th Ch 1-2 |
| "B" Inside the Restless Earth | 3-6 | 6 th Ch 1-2 |
| "J" Astronomy | 1-3 | ----- |
| "M" Forces, Motion & Energy | 1-4 | 7 th Ch 5 |

Please note on the curriculum map that there is some overlap for standards, i.e. the topic may be addressed in different books (see November). Also, for books being used in different grades it will be important to stick to only the chapters which cover material in our 8th grade standards. (I think we will have plenty to cover!)

Due to the new state standards, there will be some topics in our curriculum which will have already been taught ex., forces, motion... physics was covered completely in 7th grade. We may want to meet as science teachers to align topics for this year's students.

We have been backordered *Teaching Resource* books for both the Cells, Heredity & Classification (book C), and Forces, Motion & Energy (book M). We have been promised fall delivery.

I hope I have covered everything—if not please let me know anything I have missed.

Please pick up your books in my room (thank Freshwater and Bulton girls for all their help!)

Cheers to a good year!

Elle

MEMO

DATE

John - Look like you are right on target. Would you please provide a key to the readings you are using for standards and indicators so we can understand your plans & assessments correctly. I will then use your plans in Friday. Thank you DJJ
